

# MAKE ARIZONA HEALTHY AGAIN

- Empower Arizonans by ending medical mandates and ensuring vaccine freedom.
- Embolden parents to choose the vaccines right for their child by requiring schools to provide information about immunization exemptions.
- Give college students medical freedom by prohibiting public colleges and universities from requiring vaccines as a condition for enrollment.
- Make ivermectin available over-the-counter.
- Reinforce healthy habits by limiting purchases of soda and junk foods with SNAP benefits.
- Recognize a right for parents to access their children's medical records.
- Provide food freedom by allowing restaurants and coffee shops to sell and serve raw milk produced by AZDA dairies.
- Encourage production of organic products in Arizona.
- Require Arizona medical schools to incorporate nutritional education into the curriculum.
- Assure appropriate accreditation of naturopathic health care providers.
- Protect Arizonans by prohibiting exposure to gain-of-function research.
- Establish a "Make Arizona Healthy Again" Governor's Advisory Council.
